

First Announcement and Call for Papers The 2019 PPCHEM PowerPlant Chemistry Forum USA Power Cycle Chemistry in a Changing World 26 – 27, September 2019 – Washington, DC

The Forum will be of major interest to:

operational personnel, technical managers, plant engineers, boiler operators, cycle and plant chemists, corrosion scientists, and service providers as well as manufacturers of components and chemicals.

The official language of this conference will be English.

The Forum will provide excellent insights into the latest developments in cycle chemistry and numerous examples from fossil, combined cycle, biomass, nuclear, and other plants from around the world will be shared. The conference will consist of both invited and contributed technical papers.

Share your experience with your colleagues and take advantage of the chance to present a case study covering one of the topics listed below.

Presentation Topics (final agenda pending):

- Cycling Operation and its Challenges
- Lay-Up
- Chemical Treatment for Cycling Plants
- Effective Cycle Chemistry Management
- Industrial Steam Raising Plants /Cogeneration Plants
- Chemical Control and Monitoring for Cycling Plants
- Chemistry during Start-Up
- Sampling Systems and Instrumentation
- Life-Cycle Chemistry Optimization

Call for Papers

The conference will consist of both invited and contributed technical papers.

Abstracts must be submitted by July 19, 2019, to guarantee consideration.

The presenters will be notified of acceptance by August 2, 2019.

Abstracts and suggestions for presentations should be sent to:

Michael Rziha, Chief Key Expert Plant Chemistry, PPCHEM AG, michael.rziha@ppchem.com

Steering Committee

- Michael Rziha, (Chair), PPCHEM AG, Switzerland
- Randy Turner, Swan Analytical USA, Inc.
- David Addison, Thermal Chemistry, New Zealand
- Doug Hubbard, American Electric Power, USA
- Chad McKnight, Southern Company, USA
- Erin Westberg, Florida Power and Light/NextEra, USA
- Steve Shulder, EPRI, USA
- Mike Rupinen, LG&E and KU, USA

Sponsors and Exhibits

There will be a special vendor exhibition at the conference.
